### Notes/Narratives

Inmate CAMPOS committed suicide by hanging himself in his cell.

### Notes/Continuation

#### PHYSICAL EVIDENCE:

Item #1 (1) Crime Scene Access Log containing names of persons in and out of the crime scene.

#### CHAIN OF EVIDENCE:

I kept item #1 in my care and custody until I booked it into the Kern County Sheriff's Office property room.

#### OFFICERS INVOLVED:

Deputy Bathe (202388)assisted me in removing the cord from CAMPOS' neck.

#### DETAILS:

On 08-10-2013 I was assigned to the Central Receiving Facility as the Baker Two Deputy. Deputy BATHE was assigned to B Deck as the Baker One Deputy. At approximately 0707 hours, I was on B-deck. Inmate LUIS CAMPOS' name was on the nurses list to be seen. I walked down the four tier to ask CAMPOS if he would like to speak to the Nurse. As I walked up to CAMPOS' Cell, B4-1, I did not see CAMPOS. I walked around the outside of cell B4-1 and still could not see him.

I walked back down the tier side of cell B4-1. I observed CAMPOS sitting on the ground with his back against the cell bars. I then saw a power cord with one end of the cord tied to the top bar. The other end of the cord was tied in a noose like fashion around CAMPOS' neck. I noticed that the cord was taunt from the top of the bars all the way down to CAMPOS' neck. I attempted to untie the cord from the top bars. The knot in the cord was too tight and I could not untie it. I used my department issued radio to call for a medical priority on B-deck, cell B4-1.

I then yelled to Deputy BATHE, who was also on b deck, and advised him of the situation. Deputy BATHE responded to my location and he opened the door to Cell B4-1. I entered Cell B4-1 and attempted to loosen the cord from around CAMPOS' neck. I was unable to loosen the cord due to CAMPOS' body weight pulling on the cord.

I instructed Deputy BATHE to lift CAMPOS off the floor so I could loosen and remove the cord from CAMPOS' neck. Deputy BATHE lifted CAMPOS approximately one foot off the floor. After Deputy BATHE lifted CAMPOS, I was able to loosen and remove the cord from CAMPOS' neck. At the time, the color in CAMPOS' face was dark blue.

Case 1:14-cv-01099-DAD-JLT Document 40-2 Filed 02/29/16 Page 4 of 30  
**Incident/Investigation Report**

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:58

I layed CAMPOS on his back. I then requested (via radio) for confirmation the Nurse was on her way to B-deck. While waiting for a response from the nurse, I asked Deputy BATHE to check CAMPOS' pulse. Deputy BATHE checked CAMPOS' pulse and informed me that he had no pulse. I put my hands on CAMPOS' chest to start CPR. Before I could start chest compressions Nurse MORGAN arrived and took over CPR.

Deputy BATHE assisted Nurse MORGAN in administering CPR on CAMPOS, refer to Deputy BATHE'S supplemental report for further information. I exited cell B4-1 and started a Crime Scene Access Log. Hall ambulance and the fire department arrived on B deck at approximately 0726 hours. I escorted them to Cell B4-1.

I continued to maintain the Crime Scene Access Log until I was releaved by investigating detectives who responded to the scene. The Crime Scene Access Log remained in my care and custody until I booked it (as Evidence Item #1) into the Kern County Sheriffs Office property room.

### Supplement Notes

#### DETAILS:

On 08-10-2013 I was assigned as the Baker One Deputy for the Central Receiving Facility.

At approximately 0707 hours, Deputy AYALA called out a medical priority in cell B-4-1. Deputy AYALA said an inmate had attempted suicide by hanging in cell B-4-1. I immediately responded to the B-4 corridor control panel and opened the B-4-1 cell doors.

I entered cell B-4-1 and saw Inmate LUIS CAMPOS had hung himself, by the neck, from the cell bars with a self-made noose made from an electrical cord. I immediately grabbed underneath CAMPOS's armpits and lifted his body higher off of the ground so Deputy AYALA could take the improvised noose off of CAMPOS.

Once the cord had been removed from CAMPOS's neck. I layed CAMPOS down on the ground and began chest compressions on CAMPOS. Nurse MORGAN arrived on the scene and took over chest compressions for CAMPOS. I pulled my CPR mask out of its casing and began rescue breathing on Nurse MORGAN's cues. I continued rescue breathing at Nurse MORGAN's direction until emergency services arrived and took control of the situation.

Emergency services declared CAMPOS dead at approximately 0743 hours. I stayed available on scene until Kern County Sheriff's Detectives took control of the scene.

## Supplement Notes

### PHYSICAL EVIDENCE:

Item 1TI-1) A piece of black electrical cord with a loop tied in one end and draped over the cell bars

Item 1TI-2) Used CPR mask and yellow case

Item 1TI-3) Inmate Observation Log (suicide watch log) for inmate LUIS GABRIEL CAMPOS

Item 1TI-4) B-Deck 2300-0700 hours red log book

Item 1TI-5) B-Deck 0700-1500 hours red log book

Item 1TI-6) Inmate ID band for LUIS GABRIEL CAMPOS (LAR: 0518222, Booking # 2038560)

Item 1TI-7) Remaining black electrical cord which was attached to a fan (approximately 27" long)

Item 1TI-8) Personal property of inmate CAMPOS

### CHAIN OF EVIDENCE:

I located item 1TI-1 draped over the cross bar and between bars five and six west of the east sliding door of cell B4-1.

I located item 1TI-2 on the wood bench on the west side of cell B4-1.

Sergeant LOMBERA provided me with items 1TI-3 to 1TI-6.

I used a pair of wire cutters to removed item 1TI-7 from a fan located northwest of cell B4-1 on the outside of the cell.

Detective DORKIN retrieved item 1TI-8 from Central Receiving Facility staff and gave it to me.

I seized items 1TI-1 to 1TI-8 and directed Technical Investigators RIEHLE and RICKELS to package and transport the items to the Kern County Sheriff's Office property room to be booked. Prior to packaging items 1TI-3 to 1TI-6, Sergeant LOMBERA and I made working copies of the items.

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:58

Technical Investigator RICKELS took numerous photographs of the scene and maintained care and custody of the camera until archiving the photographs at the Technical Investigations Unit.

**OFFICERS INVOLVED:**

Licutenant VOTH, 200830, responded to the scene.

Lieutenant BISHOP, 200992, responded to the scene.

Sergeant LOMERA, 201099, was the supervisor on duty during this incident and notified the communications center.

Sergeant NORD, 201093, supervised this investigation.

Detective DORKIN, 201547, was the lead detective for this case.

Detective COLBERT, 201110, assisted in this investigation and completed a supplemental report.

Detective GRANTHAM, 201080, assisted in processing the scene.

Deputy AYALA, 202484, completed and maintained the crime scene log.

Deputy Coroner Z. MEDINA, 200926, assisted in this investigation on completed Coroner's report CO1472-13.

Technical Investigator M. RIEHLE, 200639, assisted in processing the scene.

Technical Investigator A. RICKELS, 202565, assisted in processing the scene.

**DETAILS:**

On 08/10/2013 at approximately 0758 hours, I received a telephone call from the Kern County Sheriff's Office Communications Center requesting that I respond to the Kern County Central Receiving Facility located at 1415 Truxtun Avenue for an in custody death.

I arrived at approximately 0837 hours. Detective COLBERT had spoken to Sergeant LOMBERA and provided us with a brief regarding what had occurred.

**SCENE ONE (1):**

At approximately 0910 hours, Detective GRANTHAM, Technical Investigator RICKELS, Technical Investigator RIEHLE, Deputy Coroner MEDINA and I went to B-Deck of the Central Receiving Facility and began processing the scene. I noticed a deceased male, identified as LUIS GABRIEL CAMPOS, inside cell B4-1 covered with a light blue sheet. Deputy AYALA was on scene and had begun completing a crime scene log. Deputy AYALA maintained custody of the crime scene log and later booked it into the Kern County Sheriff's Office property room.

Cell B4-1 is at the far west end of row four (4) on B-Deck. The south wall, west wall and northwest corner of the cell are blue metal bars and the remaining portions of the cell are white cement walls. There are two sliding metal bar doors on the south wall of the cell that are controlled by a control box at the west end of the row. The cell is split into two portions, east and west, by a white cement wall with the middle portion open for access to both sides. The partitioning wall obstructs the majority of the view of the east portion of the cell to anyone on the west side of the cell. There is a toilet located in the east portion of the cell near the partition wall and a metal bed attached to the east wall. There is a wood bench attached to the west wall of the cell.

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:58

Technical Investigator RICKELS took photographs of the entire scene at my direction. He kept the digital camera in his care and custody until archiving the photographs at the Technical Investigations Unit.

While outside the cell, I noticed a large fan with part of a black electrical cord attached to the back of it. The black electrical cord was measured and determined to be approximately 27 inches long. The end not attached to the fan was frayed with the wires exposed. The frayed end had gray duct tape wrapped around it. I later used a pair of wire cutters to remove the remaining electrical cord from the fan to be booked. The vertical pole of the fan was also measured and determined to be approximately 35" away from the cell wall bars of cell B4-1. Near the control panel for B-Deck, there were numerous medical waste items on the ground.

Once inside the cell, photographs were taken and then the blue sheet covering CAMPOS was removed. CAMPOS was lying face up in the southeast corner of cell B4-1 with his head oriented to the northwest. CAMPOS was wearing blue paper pants and had a torn blue paper shirt on. There were obvious ligature marks on the right side of CAMPOS' neck and CAMPOS' head was darker in color compared to the remainder of the body.

I located a black electrical cord hung over the metal bars of the south wall of cell B4-1 which appeared to be from the fan located outside of the cell. The electrical cord was tied with a loop at one end. The thickness of the cord appeared to be consistent with the ligature marks on CAMPOS' neck.

I located a used CPR mask sitting in a yellow case on the bench in the southwest corner of the cell. There was what appeared to be blood on the inside (patient side) of the mask.

There were numerous items of medical waste inside the cell on the floor. There was also a piece of gray duct tape in the toilet inside the cell.

Deputy Coroner MEDINA placed each of CAMPOS' hands inside a separate sterile bag. Deputy Coroner MEDINA directed her transport units to roll CAMPOS' body. I did not see any other signs of injuries on CAMPOS' body.

CAMPOS' body was placed in a new black plastic body bag and sealed by Deputy Coroner MEDINA at 1000 hours using blue tag number 05477. For further details regarding Deputy Coroner MEDINA'S investigation, refer to Coroner report CO1472-13.

I seized the black electrical cord and CPR mask from inside the cell as well as the remaining black electrical cord attached to the fan. I directed Technical Investigators RICKELS and RIEHLE to package the items and transport them to the property room to be booked.

Sergeant LOMBERA provided me with the red log books for B-Deck (shifts 2300-0700 hours and 0700-1500 hours), CAMPOS' inmate ID band and the Inmate Observation Log for CAMPOS. Sergeant LOMBERA and I made working copies of the log books and Inmate Observation Logs. Detective DORKIN retrieved CAMPOS' personal property from Central Receiving Facility staff and gave it to me. I directed Technical Investigators RICKELS and RIEHLE to package the items and transport them to the property room to be booked.

The processing of scene one was completed at approximately 1030 hours.

While reviewing the Inmate Observation Log, I noticed the last check of CAMPOS was documented to be at 0652 hours on 08/10/2013. Deputy SALDANA (202573) documented that CAMPOS was breathing, standing, awake and talking.

While reviewing the red log book for shift 2300-0700 hours, I noticed the last deck check for row B4 was at 0643 hours on 08/09/2013.

While reviewing the red log book for shift 0700-1500 hours, I noticed Deputy BATHE and Deputy AYALA arrived on B-Deck at 0648 hours on 08/10/2013. A face card count was completed at 0700 hours and a Clear Count was completed at 0701 hours.

**Incident/Investigation Report**

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:58

For further details regarding this investigation, refer to Detective DORKIN'S and Detective COLBERT'S reports.

No further details. End of report.

**Supplement Notes****PHYSICAL EVIDENCE:**

Item #JC1 Compact disk containing a recorded interview with Deputy BATHE.

**CHAIN OF EVIDENCE:**

After the recorded interview with Deputy BATHE, I transferred the audio file onto a compact disk labeled "Item JC1." I kept Item JC1 in my care and custody until I later booked it into the Kern County Sheriff's Office Property Room.

**DETAILS:**

On 8/10/2013, I received a call from the Kern County Sheriff's Communication Center regarding a call out to the Kern County Sheriff's Central Receiving Facility regarding a possible suicide investigation. Along with other members of the Kern County Sheriff's Office Robbery/Homicide Unit, I responded to CRF.

I responded to B-Deck to meet with Sergeant LOMBERA who was the on-duty supervisor. When I arrived on the deck I saw on the number four tier, cell number one, a body which was covered with a blanket. I asked Sergeant LOMBERA if the crime scene log had been started, and if not, to direct one of his deputies to begin one making the number four tier the entrance to the crime scene. I also requested Sergeant LOMBERA to make copies of the necessary pages in the deck check log books, and all necessary paperwork involving this particular inmate that had been identified as LUIS CAMPOS.

After the remainder of the Homicide Unit arrived, Detective DORKIN was assigned as the lead investigator in this investigation. I was assigned as the secondary. Detective DORKIN and I coordinated to interview all the parties involved. The first interview I conducted was with Deputy BATHE.

I asked Deputy BATHE to come with me to an interview room located on B-Deck across from the elevators. Prior to the interview, I advised Deputy BATHE I was going to record the interview for accuracy purposes, which he understood and agreed. After activating my digital recorder and making the introductions on the recording, I asked Deputy BATHE to describe in his own words the incident that had occurred which lead to the homicide call out. Deputy BATHE provided the following statement in summary. For further information regarding the exact statements, refer to Item JC1.

Deputy BATHE said he had worked overtime the previous evening and arrived on B-Deck at approximately 0650 hours this morning. Deputy BATHE said Deputy AYALA was already on the deck and began to conduct a face-to-card account of the inmates on B-Deck. Deputy BATHE later explained that the face-to-card count is a standard procedure of assuring all the inmates are accounted for, and that the records the deputies

Case 1:14-cv-01099-DAD-JLT Document 40-2 Filed 02/29/16 Page 13 of 30  
Incident/Investigation Report

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:59

have are correct and accurate regarding the current housing on B-Deck. Deputy BATHE said when he arrived on B-Deck he used the restroom. Deputy BATHE said when he got out of the restroom, Deputy AYALA was already doing the face-to-card count.

Deputy BATHE said he was sitting at the desk when Deputy AYALA began to walk to the four side. Deputy BATHE said there was a code yellow called out on the radio so he began to go towards the back elevators on B-Deck. Deputy BATHE said as he was going towards the back elevators, Deputy AYALA had called out a medical priority and told Deputy BATHE to come to assist him on the four side.

Deputy BATHE said Deputy AYALA instructed him to open the doors to cell number 4-1. Deputy BATHE said when he first saw Inmate CAMPOS, Deputy AYALA was attempting to remove the noose from Inmate CAMPOS' neck. Deputy BATHE said he ultimately reached under the inmate's shoulders and lifted him up so that Deputy AYALA could remove the noose from the inmate's neck. Deputy BATHE said after the noose was removed from CAMPOS' neck, the body then hit the floor and CAMPOS appeared to be lifeless. Deputy BATHE stated he put Inmate CAMPOS on his back and started chest compressions as Deputy AYALA was calling for nursing staff and continuing the medical priority.

Deputy BATHE stated Nurse MORGAN then arrived and assumed the chest compressions as Deputy BATHE removed his CPR mask from his pocket. Deputy BATHE said he inserted the filter and mouth piece onto his CPR mask and, as directed by Nurse MORGAN, completed rescue breaths into CAMPOS' mouth via the CPR mask.

Deputy BATHE stated that as he initiated the rescue breaths, he saw Inmate CAMPOS' chest rising; however, as the CPR continued it appeared to be more difficult to get the breaths into CAMPOS' lungs.

I asked Deputy BATHE how long he believes he did CPR before was relieved by fire and ambulance staff. Deputy BATHE stated he did approximately thirty chest compressions, and then was doing the rescue breaths directed by Nurse MORGAN. Deputy BATHE was unsure of the exact times or how many rounds of compressions and breaths were done prior to being relieved by fire and ambulance staff. Deputy BATHE stated CPR was conducted the entire time until relieved by fire and ambulance personnel.

I asked Deputy BATHE if when the cord was removed from CAMPOS' neck, did deputies cut it or just loosen it and remove it from his head. Deputy BATHE stated they were unable to cut it because the cutters were somewhere at the desk, and that he had lifted CAMPOS up so that Deputy AYALA could remove the noose from his head. I asked Deputy BATHE what type of material the noose was made out of. Deputy BATHE said it was a black electrical cord. Deputy BATHE said the cord looked like it came from the fan which is stored near the bars of cell number 4-1 on B-Deck.

Deputy BATHE clarified and stated that when he originally arrived on scene Deputy AYALA was attempting to loosen the cord from the cell door, rather than on CAMPOS' neck, but was unsuccessful. Deputy BATHE stated after the incident was complete the cord was left on the cell door as it was when it was removed from CAMPOS' neck. Deputy BATHE stated the noose was difficult to loosen because CAMPOS' body weight was down onto the noose and it was extremely tight.

I asked Deputy BATHE if he had any previous contacts with Inmate CAMPOS and he stated not that he remembered. Deputy BATHE said the previous shift he was the security and escort officer, and remembers seeing Inmate CAMPOS moving around cell number 4-1 as he would go to B-Deck transporting inmates; however, does not specifically remember any incidents with CAMPOS.

Prior to ending the interview, I asked Deputy BATHE if at any point in time with his contact with CAMPOS during this incident, if CAMPOS at all took a breath or appeared to have any life left in him. Deputy BATHE stated that from the incident beginning to end, Inmate CAMPOS appeared to be deceased. Deputy BATHE stated CAMPOS' face was purple and when he first saw him his chin was leaning forward onto the cord which was on his neck. Deputy BATHE stated he did remember after the noose was loosened and they attempted to lay CAMPOS on his back, CAMPOS' body was extremely flaccid, and that CAMPOS' head fell backwards and struck the concrete violently. Deputy BATHE said that he and Deputy AYALA also checked for a pulse in several different locations, but were unable to locate one.

As Deputy BATHE was describing CAMPOS' purple face condition, he advised blood was also coming out of CAMPOS' nose and mouth.

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:59

Deputy BATHE also told me during the interview that while giving rescue breaths using his mask, he saw a large amount of blood inside his mask upon doing the rescue breaths. Deputy BATHE said that during the CPR procedure the filter on his mask had also come off the interior of his mask, possibly exposing him to any blood borne pathogens carried by CAMPOS. I later notified Sergeant LOMBERA of this detail and I was informed that an informational exposure report would be completed.

I told Deputy BATHE that if he thought of anything at a later time to contact me to provide the information. I terminated my interview with Deputy BATHE.

No further information.

## Supplement Notes

### DETAILS:

On 8-10-2013 as a part of this investigation I went to C-Deck to interview one of the jail nurses that tended to inmate CAMPOS. When I arrived on deck I asked Nurse DAVINDER RANDHAWA if I could speak to her. RANDHAWA agreed but stated I could not record the interview and she would only answer certain questions per her supervisor.

I asked RANDHAWA what her involvement was with the lifesaving efforts with inmate CAMPOS. RANDHAWA said she was notified of the medical priority but does not remember the time of the call. RANDHAWA said when she arrived on B-Deck, Nurse MORGAN was already performing CPR on CAMPOS. RANDHAWA said her involvement included checking for a pulse and attaching the CRF AED unit to CAMPOS. RANDHAWA said the AED unit never shocked CAMPOS and instructed to continue compressions. RANDHAWA said she was relieved by Kern County Fire and Hall Ambulance staff.

I attempted to ask RANDHAWA her knowledge of CAMPOS including any previous dealings with CAMPOS while he has been at CRF. RANDHAWA refused to answer any questions involving CAMPOS as a directive from her superiors and stated I would have to get CAMPOS' medical chart. I asked RANDHAWA if she recalled anything else about the incident today and she said she did not. No further information.

### Supplement Notes

#### PHYSICAL EVIDENCE:

Item #MD1One (1) compact disc containing my interview with Deputy JASON AYALA.

#### CHAIN OF EVIDENCE:

I utilized my digital voice recorder to record my interview with Deputy AYALA. I later transferred the interview onto a disc and booked it into the Kern County Sheriff's Office Property Room as Item #MD1.

#### DETAILS:

On 8/10/2013 at approximately 0800 hours, I was called out to the Kern County Sheriff's Office Central Receiving Facility for a report of an inmate death. Upon arrival, I was briefed on the situation. It was reported that inmate LUIS CAMPOS, booking number 2038560, was located in cell B-Deck 4-1, suicide watch cell unconscious, not breathing with no pulse after apparently hanging himself with an electrical cord.

Upon arrival, I also received copies of the inmate observation log for Inmate CAMPOS. The last entry into the suicide watch observation log was dated August 10, 2013 at 0652 hours conducted by Deputy SALDANA. During this check, the observations include Inmate CAMPOS was breathing, standing, awake, and was talking.

Detective COLBERT and I conducted interviews during this investigation. Refer to Detective COLBERT'S supplemental report for further information.

I first spoke with Deputy JASON AYALA in the break room of B-Deck. I turned on my digital voice recorder to record my interview with Deputy AYALA. The following is a summary of my interview with Deputy AYALA. For exact quotes, refer to Item #MD1.

Deputy AYALA was working Squad 1, B-Deck, and assigned to work 0700-1500 on August 10, 2013. Deputy AYALA stated he has been a deputy with the Kern County Sheriff's Office for approximately one year.

I told Deputy AYALA we would be speaking about the incident that occurred with Inmate CAMPOS. I asked Deputy AYALA if maintaining the suicide watch log was part of his regular duties. He stated, "Yes." Deputy AYALA stated he would check on suicide watch inmates twice every half hour. Deputy AYALA said the last deck check was entered at 0652 hours. Deputy AYALA said when he began his shift he did a "face check." Deputy AYALA described this as matching the identification cards to the inmates and making sure that every inmate was in their cell. Deputy AYALA stated he did this at 0700 hours. Deputy AYALA said during his face card checks, Inmate CAMPOS was lying on his side. Deputy AYALA said he believed Inmate CAMPOS was sleeping at that time.

Case 1:14-cv-01099-DAD-JLT Document 40-2 Filed 02/29/16 Page 17 of 30  
Incident/Investigation Report

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:59

Deputy AYALA said once his check was complete, he sat down at the desk. He said he began to prepare for medication pass on B-Deck. Deputy AYALA said he would get a list of inmates that were going to see the nurse for medication pass. Deputy AYALA said CJIS was not working at the time, so he asked Nurse MORGAN to send a list of the inmates who were going to be seeing the nurse for the morning. Deputy AYALA stated he received that list and began to check on the inmates on the list, to see if they still required the medication pass. Deputy AYALA said he first went to cell B-4-1, that of Inmate CAMPOS.

Deputy AYALA said when he initially went to B-4-1 he did not see Inmate CAMPOS in the cell. Deputy AYALA said he looked at a different part of the cell and saw Inmate CAMPOS sitting down with the noose around his neck. Cell B-4-1 is partially divided inside. There is a small wall that extends inward next to the cell door. The cell can be described as having two separate areas inside. Deputy AYALA stated this was at approximately 0705 hours. Deputy AYALA said the noose was tied around Inmate CAMPOS' neck and the upper area was tied to the bars. Deputy AYALA further described Inmate CAMPOS as sitting on his buttocks and legs while his back was propped up against the bars and the small wall that extends inward inside the cell. He described Inmate CAMPOS as sitting straight up and down in a seated position. Deputy AYALA said Inmate CAMPOS' hands were lying at his side. Deputy AYALA said Inmate CAMPOS' face was blue in color. Deputy AYALA said Inmate CAMPOS was unresponsive and he could not hear him breath.

Deputy AYALA said next he attempted to untie the noose that was attached to the bar. He said there were too many knots that were too tight for him to untie. Deputy AYALA stated he called out for medical priority at his location on his radio.

Deputy AYALA said he called for his partner, Deputy BATHE, to open the door to the cell. Deputy AYALA said once he entered the cell, he said the cord was very tight around Inmate CAMPOS' neck. Deputy AYALA described the knot as being a noose with a slip knot synched around Inmate CAMPOS' neck. Deputy AYALA described this as being a perfectly made noose. Deputy AYALA said Deputy BATHE lifted Inmate CAMPOS' left arm to lift him off the ground so he could get the noose off his neck. Deputy AYALA said Deputy BATHE was able to lift up Inmate CAMPOS approximately one foot to one and a half feet off the floor. Deputy AYALA said he was then able to relieve some of the pressure off of the noose and take the noose off of Inmate CAMPOS' neck. Deputy AYALA said he left the noose where it was hanging on the bar.

Deputy AYALA said next they laid Inmate CAMPOS on his back and again confirmed via radio that the nurse was responding to their location. Deputy AYALA said he instructed Deputy BATHE to check for a pulse on Inmate CAMPOS. Deputy AYALA said Deputy BATHE did not locate a pulse. Deputy AYALA said Deputy BATHE began preparing his CPR mask to give rescue breaths to Inmate CAMPOS. Deputy AYALA said he was unsure if Deputy BATHE performed any rescue breathing breaths on Inmate CAMPOS. Deputy AYALA said he was preparing to perform chest compressions on Inmate CAMPOS and place his hands on his chest when Nurse MORGAN arrived. Deputy AYALA said Nurse MORGAN told him she would take over CPR. Deputy AYALA was relieved by Nurse MORGAN and she began CPR. Deputy AYALA said Sergeant LOMBERA arrived a short time later and instructed him to maintain the crime scene log on B-Deck. Deputy AYALA said there began to be a lot of people arriving to assist. Deputy AYALA said once he began the log, he looked to the cell and could see Deputy BATHE performing breaths, and Nurse MORGAN conducting CPR compressions.

I told Deputy AYALA I was going to ask him questions regarding the fan next to cell B-4-1. I asked Deputy AYALA how he thought Inmate CAMPOS was able to reach the power cord to the fan. Deputy AYALA said he wasn't exactly sure, but believed Inmate CAMPOS reached through the bars to grab the cord. Deputy AYALA said he had no idea Inmate CAMPOS had access to the power cord. Deputy AYALA said that fan had been there for a long time. I asked Deputy AYALA what they use the fan for. Deputy AYALA said sometimes they turn it on to assist in getting air circulation in B-Deck. Deputy AYALA said he could not remember the last time he used the fan. He said the fan is loud and he tries not to use it. I asked Deputy AYALA where the fan plugs in to. He said it plugs into the pipe chase between the three tier and the four tier. Deputy AYALA said he believed the fan was far enough away from the cell so inmates could not get access to it.

Deputy AYALA said he had worked overtime the night before, 2300-0700. Deputy AYALA stated he worked at IRC and did not have contact with Inmate CAMPOS on B-Deck. I asked Deputy AYALA if he had any contact with Inmate CAMPOS prior to this shift. Inmate CAMPOS first went on suicide watch on August 8, 2013 at 2318 hours. Deputy AYALA said he believed it was the 8th of August when he was told by Sergeant

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:59

LOMBERA that Inmate CAMPOS would be taken to Kern Medical Center by transportation units because he hit his head on the cell bars. Deputy AYALA said he did briefly speak with Inmate CAMPOS and spoke about topics such as why he was arrested prior to him going to Kern Medical Center. I asked Deputy AYALA if there were any other encounters with Inmate CAMPOS where he observed odd behavior or any odd statements. He said, "No."

I asked Deputy AYALA if there was an inmate in the cell next to Inmate CAMPOS. He said, "Yes." I asked Deputy AYALA if there was any additional information he had about the investigation, or if he had any questions for me. He said, "No." I terminated my interview with Deputy AYALA.

I later transferred my interview with Deputy AYALA onto a compact disc and booked it into the Kern County Sheriff's Office Property Room as Item #MD1.

End of Report.

## Supplement Notes

### PHYSICAL EVIDENCE:

Item #MD1, One (1) compact disc containing my interview with inmate JEFF TOLLE (2038537).

### CHAIN OF EVIDENCE:

I utilized my digital voice recorder to record my interview with inmate TOLLE. I later transferred the interview onto a disc and booked it into the Kern County Sheriff's Office Property Room as Item #MD1.

### DETAILS:

During this investigation, I spoke with Inmate JEFF TOLLE, booking number 2038537. Inmate TOLLE was in suicide watch cell B-4-2. This cell is next to cell B-4-1. I turned on my digital voice recorder to record my interview with Inmate TOLLE. The following is a summary of my interview with Inmate TOLLE. For exact quotes, refer to Item #MD1.

Detective GRANTHAM and I walked to cell B-4-2 and briefly spoke with Inmate TOLLE. Detective GRANTHAM asked Inmate TOLLE if he knew what happened to the inmate in the cell next door (B-4-1). Inmate TOLLE said he did not know anything except that the nurse's crash cart was at his (inmate CAMPOS) cell. Inmate TOLLE stated he did not see what happened, nor did he see who tended to Inmate CAMPOS. I asked Inmate TOLLE if he every spoke with Inmate CAMPOS before this incident. Inmate TOLLE said he spoke with Inmate CAMPOS yesterday, but not today. Inmate TOLLE said they talk about generic subjects such as their charges and why they are in jail. Inmate TOLLE said Inmate CAMPOS wanted to talk, but he didn't want to. Inmate TOLLE said he couldn't do it and went back to sleep. Inmate TOLLE stated he spoke with Inmate CAMPOS when it was daylight yesterday.

He also described Inmate CAMPOS talking to himself and with the deputies. Detective GRANTHAM asked Inmate TOLLE if deputies came by last night to check on them. Inmate TOLLE said, "Constantly." Detective GRANTHAM asked Inmate TOLLE how deputies would see if they were okay. Inmate TOLLE said they would call his name. Detective GRANTHAM asked TOLLE if he would respond so that deputies knew he was okay. He said, "Yes." Inmate TOLLE stated he believed he was checked on approximately once every half hour. Inmate TOLLE said deputies did the same with Inmate CAMPOS. He could hear Inmate CAMPOS' responses during the checks.

Detective GRANTHAM asked Inmate TOLLE why he was unable to hear anything. Inmate TOLLE said it was loud in the area. Inmate TOLLE was holding what appeared to be homemade earplugs made from toilet paper. Inmate TOLLE said he would plug his ears with the ear plugs. Inmate TOLLE said although his ears were plugged, he could still hear some things going on because Inmate CAMPOS was loud. Inmate TOLLE said he last heard Inmate CAMPOS this morning before daylight. Inmate TOLLE described getting breakfast at approximately 0500 hours. Inmate TOLLE said he could hear Inmate CAMPOS between that time and the incident. Detective GRANTHAM asked Inmate TOLLE if he

## Incident/Investigation Report

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:59

heard any odd noises during that time such as the sound of metal or anything out of place. Inmate TOLLE said, "No." Detective GRANTHAM and I thanked Inmate TOLLE for speaking with us and terminated our interview.

While speaking with Inmate TOLLE, I could see the dividing wall between cell B-4-1 and cell B-4-2 was divided by a solid concrete wall. There is no way for the inmates in the cells to see each other.

I later transferred my interview onto a compact disc and booked it into the Kern County Sheriff's Office Property Room as Item #MD1.

End of Report.

## Supplement Notes

### PHYSICAL EVIDENCE:

Item #MD1, One (1) compact disc containing my interview Nurse MORGAN.

### CHAIN OF EVIDENCE:

I utilized my digital voice recorder to record my interview with Nurse MORGAN . I later transferred the interview onto a disc and booked it into the Kern County Sheriff's Office Property Room as Item #MD1.

### DETAILS:

I spoke with Nurse MORGAN at the nurse's office at IRC. I utilized my digital voice recorder to record my interview with Nurse MORGAN. The following is a summary of my interview with Nurse MORGAN. For exact quotes, refer to Item #MD1.

I told Nurse MORGAN I would be asking questions regarding Inmate CAMPOS. I asked Nurse MORGAN if she was involved with any of the observations when Inmate CAMPOS arrived at Kern County Sheriff's Office Central Receiving Facility, up until the incident. Before I could finish my question, Nurse MORGAN said, "I am unable to discuss any type, any action or interaction I would have had with anybody here as a patient."

I asked Nurse MORGAN if she responded to B-Deck and she said, "Yes." I asked Nurse MORGAN what brought her attention to B-Deck. Nurse MORGAN said at the time, she was away from her radio attending to a "code yellow" just outside the nurse's office. Nurse MORGAN said Deputy SHINN told her there was a medical priority on B-Deck. Nurse MORGAN said she abandoned the code yellow and took the elevator upstairs to arrive at B-Deck. Nurse MORGAN said she arrived at B-Deck and looked to the left. Nurse MORGAN said she saw the activity to the left and went over to assist.

I asked Nurse MORGAN if it is part of her duties to monitor radio traffic for emergency medical incidents and she said, "Yes." Nurse MORGAN said she noticed Inmate CAMPOS was lying down on the floor and deputies were providing medical aide. Nurse MORGAN stated Inmate CAMPOS was lying on his back. Nurse MORGAN said she needed to conduct an assessment of Inmate CAMPOS and asked deputies to temporarily stop aide. Nurse MORGAN said Inmate CAMPOS was unresponsive when she evaluated him. Nurse MORGAN said she then immediately began continuing emergency medical aide. I asked Nurse MORGAN if deputies were conducting CPR. She said, "Absolutely." Nurse MORGAN said she took over compressions during CPR, and also provided instruction to deputies that assisted.

Nurse MORGAN said she was the first nurse to arrive, and her partner arrived with the "crash cart." I asked Nurse MORGAN if she provided rescue breathing to Inmate CAMPOS. She said, "No." She said her latest education is to provide compressions only during CPR. She said

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:59

Deputy BATHE attempted to give breaths and did a great job at it. She stated between compressions she felt for a carotid pulse, but did not locate one. Nurse MORGAN said the deputies were providing effective and good emergency care to Inmate CAMPOS.

Nurse MORGAN said the fire department was the next emergency medical services to arrive, followed shortly by Hall Ambulance. Nurse MORGAN said she was completely concentrating on Inmate CAMPOS and did not know the exact times or how long it took for first responders to arrive. Nurse MORGAN said fire personnel took over CPR for her once they arrived. Nurse MORGAN said at that time, she assisted EMS and stood by Inmate CAMPOS. Nurse MORGAN said she asked fire if they wanted her to remove the AED that was currently on Inmate CAMPOS and they said no. Nurse MORGAN said fire requested the AED to remain on Inmate CAMPOS.

I confirmed with Nurse MORGAN that she was not going to speak about any contact with Inmate CAMPOS. I asked Nurse MORGAN from the time Inmate CAMPOS arrived at Kern County Sheriff's Office Central Receiving Facility, was she allowed to speak about any of his behaviors or statements. Nurse MORGAN said no, that she has been informed by Kern Medical Center that her role is to document in the medical record. Nurse MORGAN said any information I needed or any other investigator needed would need to be obtained by getting the medical records. I thanked Nurse MORGAN for speaking with me and terminated my interview with her.

I later transferred my interview with Nurse MORGAN onto a compact disc and booked it into the Kern County Sheriff's Office Property Room as Item #MD1.

End of Report.

## Supplement Notes

### PHYSICAL EVIDENCE:

Item #MD1, One (1) compact disc containing my interview with Deputy COLLIER.

### CHAIN OF EVIDENCE:

I utilized my digital voice recorder to record my interview with Deputy COLLIER. I later transferred the interview onto a disc and booked it into the Kern County Sheriff's Office Property Room as Item #MD1.

### DETAILS:

On 08/10/2013 at approximately 2352 hours, I spoke with Deputy COLLIER, CAD ID 202511, at Kern County Sheriff's Office Central Receiving Facility B-Deck. I conducted my interview in the B-Deck break room. I turned on my digital voice recorder to record my interview with Deputy COLLIER. The following is a summary of my interview with Deputy COLLIER. For exact quotes, refer to Item #MD1.

I told Deputy COLLIER we would be speaking with him about Inmate CAMPOS and the events leading up to the incident. Deputy COLLIER stated he has been a deputy with the Kern County Sheriff's Office for approximately six months. Deputy COLLIER stated he works Squad 3 at Central Receiving Facility during the hours of 2300 to 0700 hours. Deputy COLLIER stated he worked his regular shift last night, 2300 to 0700 hours. Deputy COLLIER stated he was assigned to B-Deck the entire shift.

I asked Deputy COLLIER if Inmate CAMPOS was in cell B-4-1 when he started his shift and he said, "No". Deputy COLLIER said inmate CAMPOS was not there when he started his shift. Deputy COLLIER stated Inmate CAMPOS was inside a safety cell in IRC during the beginning of his shift. Deputy COLLIER stated approximately half way through his shift Inmate CAMPOS was brought to suicide watch cell B-4-1. Deputy COLLIER stated the exact time could be determined by the entries in the red jail books. Deputy COLLIER said he made the entries into the book.

I asked Deputy COLLIER if he observed any strange behaviors or statements by Inmate CAMPOS during his shift. Deputy COLLIER stated Inmate CAMPOS slept a lot of the time he was there. He said both him and Deputy SALDANA would take turns doing the deck checks. Deputy COLLIER said he was told to pay extra attention to Inmate CAMPOS because he had previously hit his head on the bars of the cell. Deputy COLLIER stated he could hear Deputy SALDANA wake up Inmate CAMPOS to confirm he was alert and alive during the deck checks. Deputy COLLIER said he would also yell out Inmate CAMPOS' name to wake him up to confirm he was alive. Deputy COLLIER said Inmate CAMPOS slept for a couple hours, but during most of the deck checks he was already awake.

Deputy COLLIER said Inmate CAMPOS wanted to see his kid and was worried about his case. Deputy COLLIER said he and Deputy SALDANA would tell Inmate CAMPOS if he was stressed out to try to sleep to relieve stress, or do exercises to relieve stress. Deputy COLLIER

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:59

said towards the end of their shift, he noticed Inmate CAMPOS would stand up quite a bit. Deputy COLLIER said Inmate CAMPOS began saying the same things over and over again, stating he was stressed out. Deputy COLLIER said both him and Deputy SALDANA spoke with Inmate CAMPOS for approximately fifteen minutes prior to the end of their shift. I asked Deputy COLLIER approximately what time Inmate CAMPOS was doing this. Deputy COLLIER said it was approximately 0640 hours. Deputy COLLIER said that his relief on the next shift arrived at approximately 0645 hours. Deputy COLLIER stated both him and Deputy SALDANA were speaking with Inmate CAMPOS as they were waiting for the elevator and as they were leaving. Deputy COLLIER said he told Inmate CAMPOS he would speak with him again in sixteen hours when he came back on shift. Deputy COLLIER said Inmate CAMPOS thanked him for talking with him. Deputy COLLIER stated that was the last thing Inmate CAMPOS told him.

I asked Deputy COLLIER when the deck checks are performed. He said once every half hour the regular deck checks, and then twice every half hour for the suicide watch inmates.

I spoke with Deputy COLLIER about the fan that was located near the cell. Deputy COLLIER stated the fan has always been at that same location since he has been assigned to Central Receiving Facility. Deputy COLLIER said during the summer time when it got hot, there were times when the air conditioning unit was broken or did not work on B-Deck. Deputy COLLIER stated he would turn on the fan to try to circulate cooler air towards that front area of B-Deck where the desk is located. Deputy COLLIER said the power cord would plug into an outlet in the pipe chase. Deputy COLLIER said he didn't think anyone would be able to reach the cord. I asked Deputy COLLIER since he's been assigned to Central Receiving Facility, has the power cord always been mended with duct tape and he said, "Yes."

I asked Deputy COLLIER if there was anything we had not spoken about that he felt was important for the investigation. Deputy COLLIER spoke about additional statements made by Inmate CAMPOS. Deputy COLLIER said Inmate CAMPOS was asking him about his charges. He said Inmate CAMPOS was worried because he was on felony probation. Deputy COLLIER also said Inmate CAMPOS told him kidnapping was a serious charge. Deputy COLLIER did not provide any additional information.

I ended my interview with Deputy COLLIER. I later transferred my interview with Deputy COLLIER onto a compact disc and booked it into the Kern County Sheriff's Office Property Room as Item #MD1.

End of Report.

## Supplement Notes

### PHYSICAL EVIDENCE:

Item #MD1, One (1) compact disc containing my interview with Deputy SALDANA.

### CHAIN OF EVIDENCE:

I utilized my digital voice recorder to record my interview with Deputy SALDANA. I later transferred the interview onto a disc and booked it into the Kern County Sheriff's Office Property Room as Item #MD1.

### DETAILS:

On 8/11/2013 at approximately 0030 hours, I arrived at Kern Medical Center to speak with Deputy CHRISTOPHER SALDANA, about the incident with Inmate CAMPOS. At the time, Deputy SALDANA was assigned to watch an inmate in Room 3434. During the time of the interview, a Detention Deputy was watching an inmate in the room across from the room Deputy SALDANA was watching the inmate. The Detention Deputy was able to watch both inmates while I briefly spoke with Deputy SALDANA in a break room directly across from Room 3434. I used my digital voice recorder to record my interview with Deputy SALDANA. The following is a summary of my interview with Deputy SALDANA. For exact quotes, refer to Item #MD1.

Deputy SALDANA stated he has been a deputy with the Kern County Sheriff's Office for approximately six months. Deputy SALDANA stated he works Squad 3 at Central Receiving Facility during the hours of 2300 to 0700 hours. I told Deputy SALDANA we would be speaking about Inmate LUIS CAMPOS. I asked Deputy SALDANA if he worked yesterday, 2300 to 0700 hours and he said yes. Deputy SALDANA said he was working B-Deck his entire shift.

Deputy SALDANA stated Inmate CAMPOS arrived on B-Deck approximately two to three hours into his shift last night. Deputy SALDANA stated Inmate CAMPOS had previously been inside the safety cell after hitting his head on the cell bars. Deputy SALDANA said he was present during one time when Inmate CAMPOS hit his head on the bars, and learned of a second incident of Inmate CAMPOS hitting his head on the bars, when he was off shift. Deputy SALDANA said he spoke with Inmate CAMPOS about not hitting his head on the bars anymore. Deputy SALDANA said Inmate CAMPOS said he was not going to hit his head on the bars anymore and was going to sleep it off.

Deputy SALDANA said Inmate CAMPOS would speak with him about his charges. Deputy SALDANA said he tried to calm Inmate CAMPOS down and tell him he has not even been to court yet.

I asked Deputy SALDANA to explain what happened when he saw Inmate CAMPOS hit his head on the bars. He said inmate CAMPOS used both hands, got all amped up and hit his head once on the bar causing it to bleed. He said he called for the deputy who escorted inmate CAMPOS

Agency: KCSD

Case Number: SR13-22293

Date: 8/27/2013 14:40:59

to B-Deck, to come back and bring him back down stairs, in which he did. I asked Deputy SALDANA if during that shift, where inmate CAMPOS hit his head, did Inmate CAMPOS make any odd statements or suicidal statements. Deputy SALDANA said, "Yes." Inmate CAMPOS told him he wanted to kill himself. Deputy SALDANA said Inmate CAMPOS was thinking about his charges on his current kidnapping case. He told Deputy SALDANA that if he hit his head on the bars that he would stop thinking about his charges. Deputy SALDANA said Inmate CAMPOS told him he wanted to hit his head so it would take the pain away, of thinking about his charges.

I asked Deputy SALDANA how often he would conduct deck checks, with a suicide watch inmate and he said, "Twice, every thirty minutes." I asked Deputy SALDANA if Inmate CAMPOS was alert and acting normal during the deck checks. Deputy SALDANA said Inmate CAMPOS was alert, but was acting strange. Deputy SALDANA said Inmate CAMPOS would often stand up, look around and try to speak to the deputies, regarding his charges. Deputy SALDANA told Inmate CAMPOS he really needed to speak to his attorney, regarding the charges and that they couldn't provide advice for him. Deputy SALDANA said not only would Inmate CAMPOS speak with him during deck checks, but would speak with him while they were at their desk doing other duties, because the cell was so close to the desk. I asked Deputy SALDANA if he would confirm that Inmate CAMPOS was alive with every deck check and he said, "Yes." Deputy SALDANA said if Inmate CAMPOS was not alert and walking around, he would confirm that he was breathing and alive by observing him, as he was laying down on his bed.

I began to speak with Deputy SALDANA regarding the shift change. Deputy SALDANA said Deputy AYALA arrived first for shift change. Deputy SALDANA said he would wait for both relief deputies to arrive, and then both he and Deputy COLLIER would leave at the same time. Deputy SALDANA couldn't recall the exact time they left B-Deck, but it was close to seven (7) o'clock.

I spoke with Deputy SALDANA about the fan, located near the cell. I asked Deputy SALDANA if the fan has always been there since he worked at Central Receiving Facility, and he said, "Yes, it has always been there, in that one spot." Deputy SALDANA said the fan would plug into an outlet in the pipe chase. Deputy SALDANA said he would turn that fan on when he worked the Second Squad at Central Receiving Facility. Deputy SALDANA said the hours were 1500-2300 hours. Deputy SALDANA said the heat of the day would make B-Deck very hot and would need the fan to try and cool off.

Deputy SALDANA said he was surprised to hear Inmate CAMPOS had committed suicide. He said both him and Deputy COLLIER were building a good rapport with Inmate CAMPOS by telling him, once he goes to court things might not be as bad as he thinks. Deputy SALDANA said it appeared Inmate CAMPOS was fine, and listening to them. Deputy SALDANA said that was the last interaction he had with Inmate CAMPOS. Deputy SALDANA didn't have any further information. I terminated my interview with Deputy SALDANA.

I later transferred my interview with Deputy SALDANA onto a compact disk and booked in into the Kern County Sheriff's Office Property Room and assigned Item # MD1.

End of report.

## Supplement Notes

### PHYSICAL EVIDENCE:

Item #2TI1Paper inmate clothes belonging to Inmate CAMPOS.

Item #2TI2 Right hand preservation bag.

Item #2TI3Left hand preservation bag.

Item #2TI4One white body sheet.

Item #2TI5Control blood sample from CAMPOS.

### CHAIN OF EVIDENCE:

Technical Investigator RICKELS seized items 2TI1 through 2TI5 at the coroner's facility during the post mortem examination of Inmate LUIS CAMPOS, booking number 2038560. Technical Investigator RICKELS kept the items in his care and custody until they were booked into the Kern County Sheriff's Office Property Room.

Technical Investigator SLAYTON took several photographs during the post mortem examination. Refer to his worksheet for details.

### OFFICERS INVOLVED:

The Kern County Sheriff's Office.

Technical Investigator SLAYTON took photographs and assisted in processing the scene.

Technical Investigator RICKELS assisted in processing the scene.

Kern County Coroner's Office personnel.

Dr. WHITMORE, conducted the post mortem examination.

Autopsy Assistant STRAUSS assisted Dr. WHITMORE.

Autopsy Assistant SHAIBI assisted Dr. WHITMORE

### DETAILS:

On August 12, 2013 I arrived at the Kern County Coroner's Office to attend the post mortem examination of Inmate LUIS CAMPOS. Dr. WHITMORE conducted the post mortem examination and was assisted by Autopsy Assistant STRAUSS and SHAIBI. Technical Investigators SLAYTON and RICKELS were also present to process evidence and take photographs during the post mortem examination.

At 1033 hours the blue tag and white tag were cut from the black coroner's bag. The blue tag had the number 05477. The white tag had the

## Incident/Investigation Report

coroner's office case number CO1472-13. LUIS CAMPOS was printed on the white tag, along with Coroner Investigator MEDINA with the date of August 10, 2013. At 1033 hours Dr. WHITMORE began the post mortem examination.

Once the black coroner's bag was open, I could see the male who was identified as Inmate CAMPOS lying inside wrapped in a white body sheet and clothed with dark blue or purple suicide watch inmate clothes. Once the clothes were removed from Inmate CAMPOS I could see he had medical apparatus on and about his person. He had redness on the bottoms of his legs, back, arms, neck and all over his face. I could see there were two approximate one inch (2) cuts on the top of his head, but appeared to be older wounds. There was a dark red bruise that Dr. WHITMORE described as a ligature mark under CAMPOS' chin and upper neck area. This ligature mark extended from around the front of CAMPOS' neck to around the back of his neck, just under his hairline.

CAMPOS had a tattoo of the number six (6) on his right thigh and a number nine (9) on his left thigh. On the stomach there was a tattoo "SHR" and the letters "WATTS" on the top of his chest.

During the examination, Dr. WHITMORE noted there was petechial hemorrhaging in both of CAMPOS' eyes. Dr. WHITMORE said this is consistent with pressure around the neck. When the scalp was removed from CAMPOS' head I could see bleeding underneath the cuts that were visible on his scalp. Once CAMPOS' scull was removed, Dr. WHITMORE stated CAMPOS' brain was swollen due to the pressure from his neck, but was otherwise normal.

Dr. WHITMORE noted the hyoid bone was broken. Dr. WHITMORE noted this when he examined the trachea of Inmate CAMPOS. He explained this bone as being in the throat under the chin line. Dr. WHITMORE said this was consistent with strangulation or hangings in order for this bone to break.

During the autopsy Technical Investigator RICKELS seized Items 2TI1 through 2TI5 from CAMPOS. Refer to Physical Evidence heading for further details. Technical Investigator SLAYTON took several digital photographs during the autopsy. Refer to Technical Investigator SLAYTON's worksheet for further details.

The conclusion of the post mortem examination Dr. WHITMORE said the cause of death was hanging and the manner was suicide. The autopsy was concluded at 1205 hours.

End of report.

## Supplement Notes

### DETAILS:

On 8-13-2015 I completed a report regarding the interview with Deputy BATHE. I spoke to Detective HUBBARD regarding this report and upon reviewing the original report I saw that I had originally listed a CD containing the recorded interview with Deputy BATHE. During several investigations in early 2013 I had issues with my digital recorder which would often not record. After learning this I forgot to do an additional supplemental report to document the mistake.
